On July 26, 2018, ROBLOX warned its users about several scams on Roblox that are being advertised on YouTube. They were shown to have included links to pirated, unlicensed games, which are at risk of having their ROBLOX accounts banned due to the unauthorized distribution of their intellectual property.

Robux (also known as Roblox) is the in-game currency of Minecraft:Roblox. It can be bought with real money, but in order to earn it, you have to do missions or purchase it with real money, which means that you are paying them for a fixed amount of time. Unfortunately for some players, they will be astounded by the fact that buying robux for roblox actually results in getting less than what you would get if you had done all these activities on your own. The amount of robux that you will get depends on how much stuff you buy and how many times you do a test.

You can unlock new gear for your character by completing different adventures or collecting coins from different obstacles in-game. The more you explore and play, the more prizes you get!

If you have never played "Robloxian life" then it won't be easy for you to get Robux because you'll have to do tasks, watch videos, spam the chat, and probably a lot more. If you want Robux fast, then this may not be your best game.

On March 18th, 2019, ROBLOX announced that they were working on a system that would allow them to detect bot accounts and confiscate accounts from them.[31] On April 25th, 2019, ROBLOX announced "Secure Trading" again as they would require players to use their respective Facebook page accounts for trading purposes. As of June 15th, 2019, ROBLOX will still allow customers from around the world to trade with other users without requiring Facebook. [32]
